CLOUDIE · HOW IT WORKS

System Flow

User Uploads a PDF
File enters the Cloudie pipeline

↓

Feature Extractor
Parses 32 structural PDF features

↓

TWO INDEPENDENT RISK SIGNALS

Random Forest AI
Primary signal

Machine-learning analysis of the file's structure — catches novel & evasive malware.

VirusTotal API
Corroboration

Signature-based scan across multiple antivirus engines for known threats.

↓

Verdict Engine
Fuses both signals into one decision

↓

✓ CLEAN	⚠ SUSPICIOUS	✕ MALICIOUS
Encrypt & store	Stored, flagged for review	Rejected outright

ACCEPTED FILES CONTINUE ▾

↓

AES-256 Encryption
Unique key per file · QR key sharing

→

Stored in MySQL
Encrypted & safe at rest
