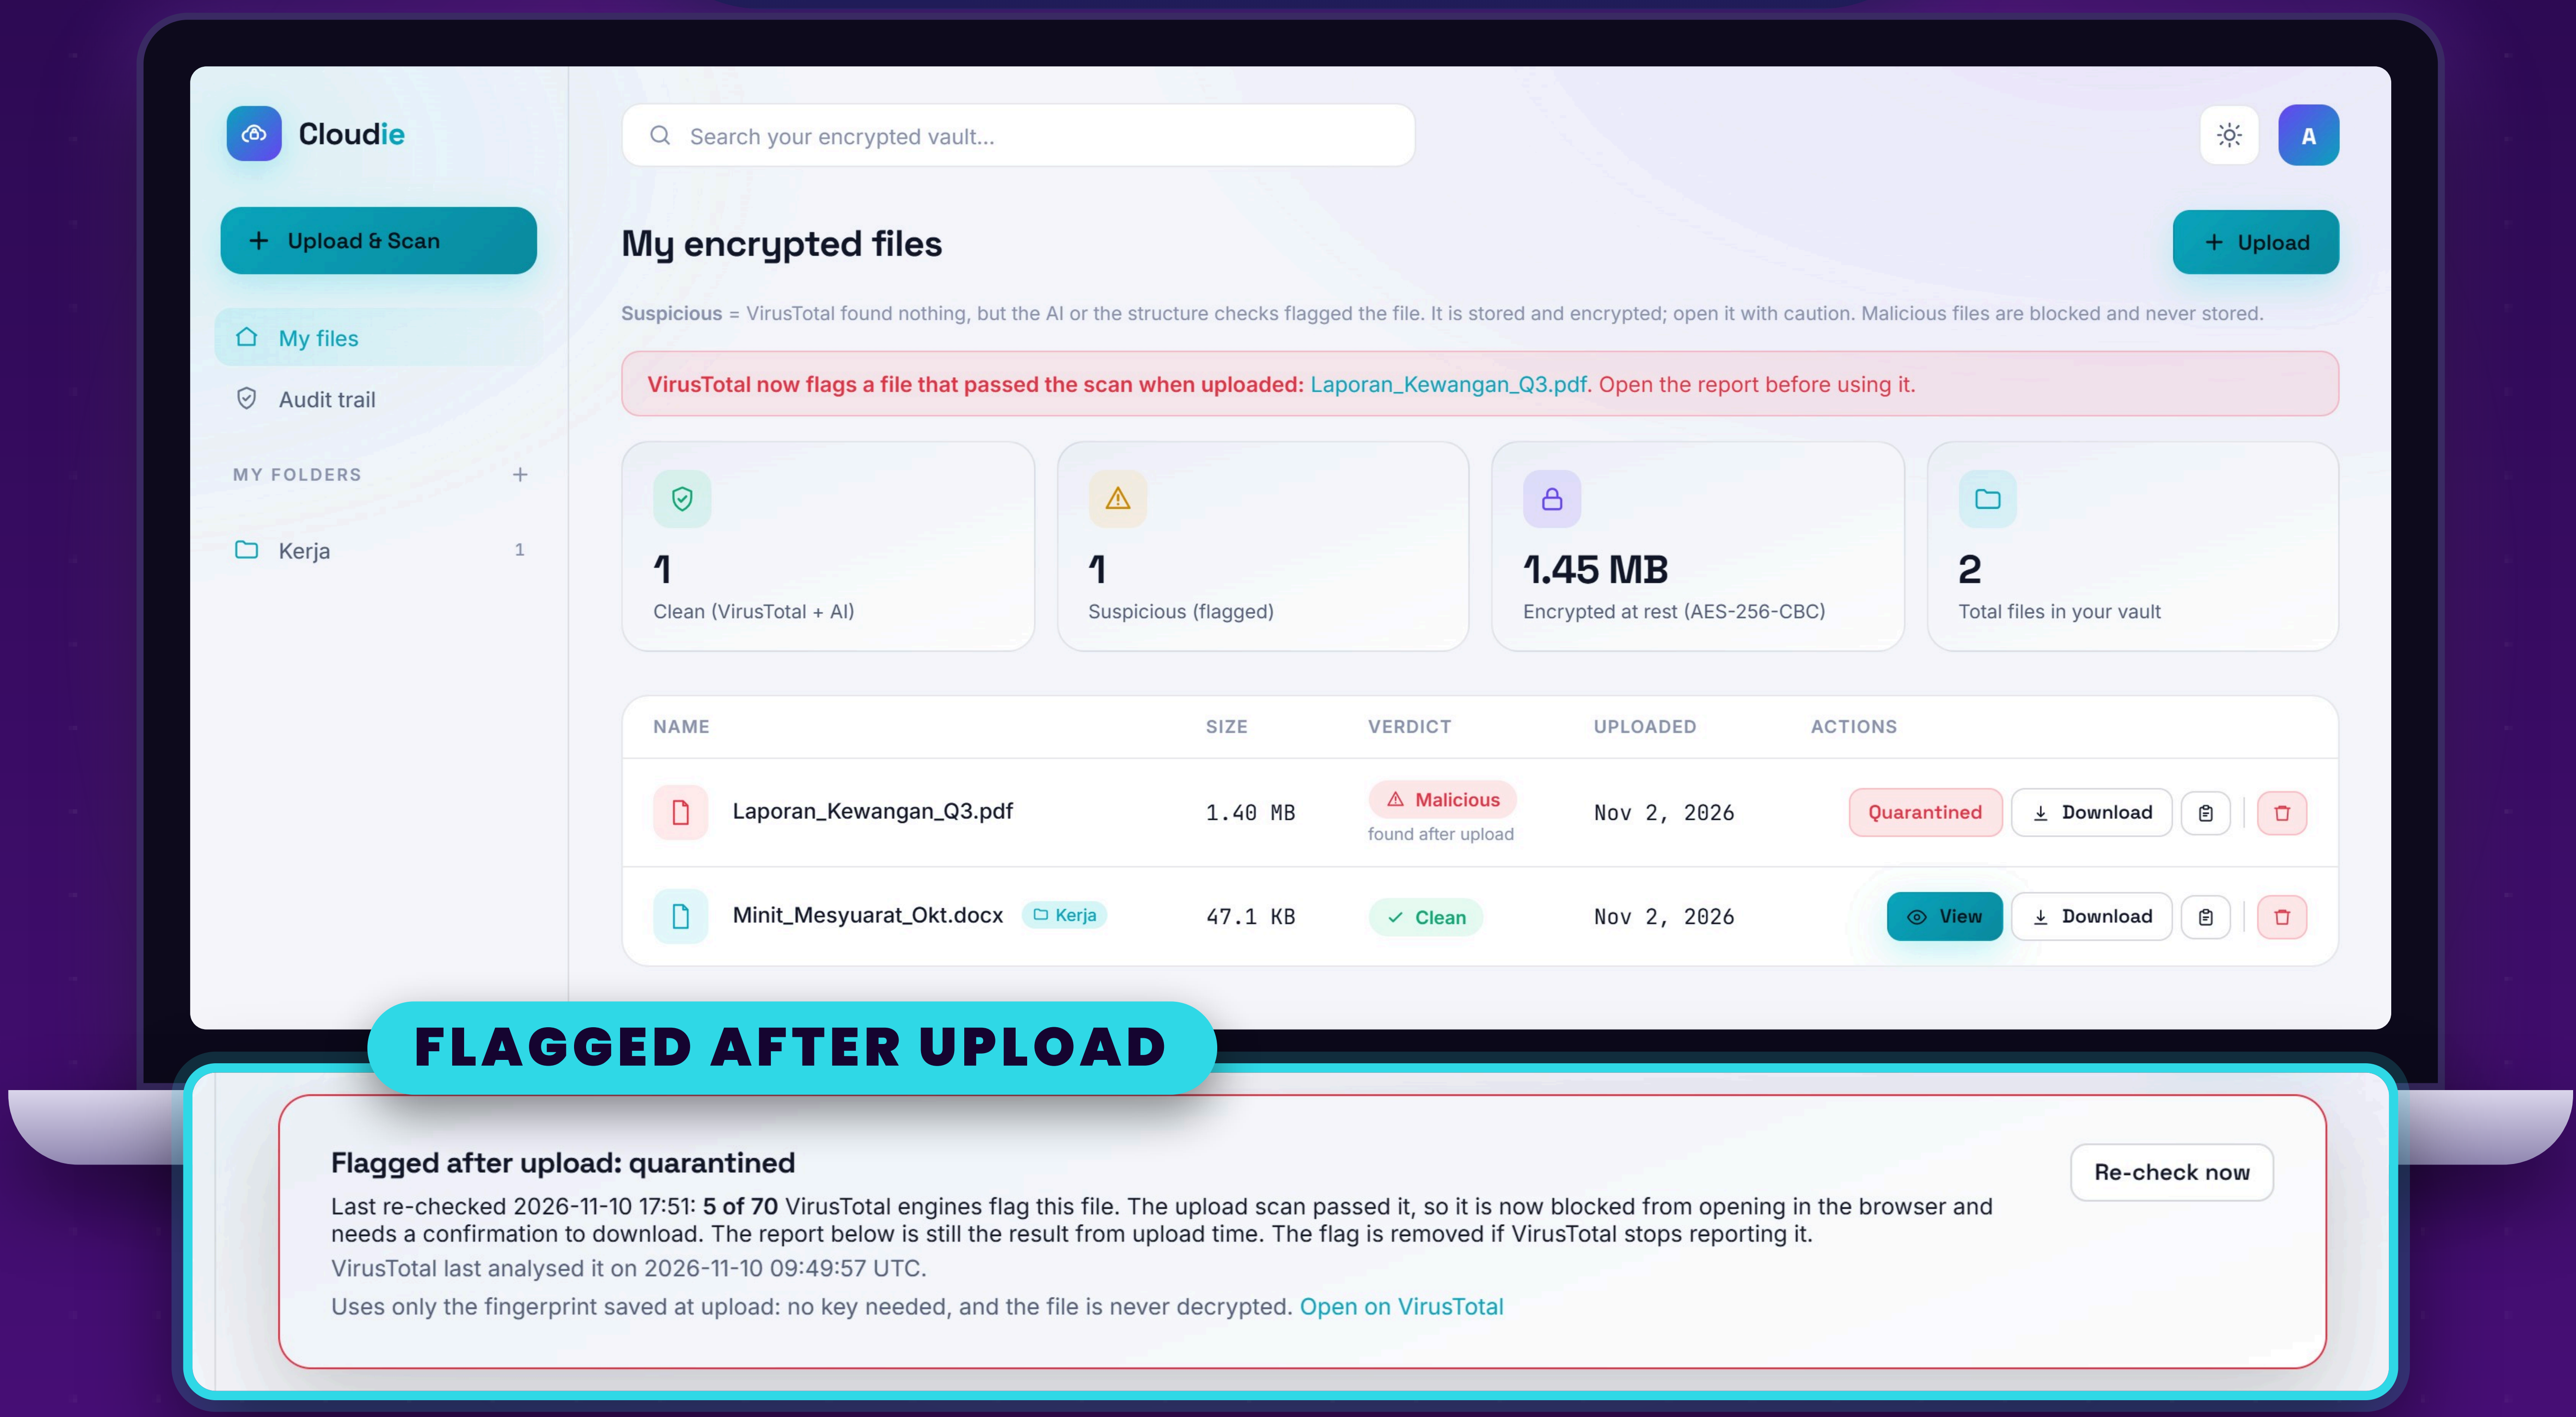
## SECURE CLOUD STORAGE WITH LAYERED MALWARE DETECTION & AES-256 ENCRYPTION

***Checks before it keeps. Keeps watching after.***



**My encrypted files**

**Suspicious** = VirusTotal found nothing, but the AI or the structure checks flagged the file. It is stored and encrypted; open it with caution. Malicious files are blocked and never stored.

**VirusTotal now flags a file that passed the scan when uploaded:** Laporan_Kewangan_Q3.pdf. Open the report before using it.

| | | | |
|---|---|---|---|
| 1<br>Clean (VirusTotal + AI) | 1<br>Suspicious (flagged) | 1.45 MB<br>Encrypted at rest (AES-256-CBC) | 2<br>Total files in your vault |

| NAME | SIZE | VERDICT | UPLOADED | ACTIONS |
|---|---|---|---|---|
| Laporan_Kewangan_Q3.pdf | 1.40 MB | Malicious<br>found after upload | Nov 2, 2026 | Quarantined · Download |
| Minit_Mesyuarat_Okt.docx · Kerja | 47.1 KB | ✓ Clean | Nov 2, 2026 | View · Download |

**FLAGGED AFTER UPLOAD**

**Flagged after upload: quarantined**

Re-check now

Last re-checked 2026-11-10 17:51: **5 of 70** VirusTotal engines flag this file. The upload scan passed it, so it is now blocked from opening in the browser and needs a confirmation to download. The report below is still the result from upload time. The flag is removed if VirusTotal stops reporting it.

VirusTotal last analysed it on 2026-11-10 09:49:57 UTC.

Uses only the fingerprint saved at upload: no key needed, and the file is never decrypted. Open on VirusTotal

## HOW IT WORKS

- **Upload** any file
- **Scan** ~70 engines, structure, AI
- **Encrypt** AES-256, key per file
- **Store** key as QR, only you hold it
- **Re-check** again after upload

### LAYERED MALWARE DETECTION

VirusTotal first, then structure checks and an AI model catch disguised files.

### AES-256 & QR KEY

Every file gets its own key. Cloudie never stores it: you keep it as a QR.

**INNOVATION**

### RETROACTIVE RE-CHECK

Stored files are checked again later. Flagged ones are quarantined, without the key.

### TAMPER-EVIDENT AUDIT

Every action sealed in a hash chain. Any edit shows "Tampering detected".
