Cloudie

BUSINESS MODEL

From campus project to secure storage for Malaysian teams

MUHAMMAD AQEEF BIN AZHAR | Supervisor: **DR. FAKARIAH HANI BINTI MOHD ALI** | BSc (Hons) Netcentric Computing, UiTM Shah Alam

VALUE PROPOSITION

Storage that checks before it keeps.

Catches disguised files
Structure checks find what has no signature yet.

Encrypts every file
A new AES-256 key per file; only the owner holds it.

Shows the evidence
Readable scan reports and a tamper-evident log.

WHY NOW IN MALAYSIA

1. **PDPA (Amendment) Act 2024:** data breach notification and data protection officers are now required.
2. **Cyber Security Act 2024 (Act 854):** new duties for national critical information infrastructure (NCII) sectors.
3. **Files are the way in:** invoices, CVs and forms arrive as attachments every day.

BUSINESS MODEL CANVAS

How Cloudie creates, delivers and captures value

KEY PARTNERS
- Google Cloud (Run, SQL, Storage)
- VirusTotal or another scanning engine (commercial licence)
- UiTM: pilot site and research
- IT resellers and SME associations

KEY ACTIVITIES
- Scan, encrypt and store files
- New structure rules for new attacks
- Retrain and measure the AI

KEY RESOURCES
- Structure-check engine + RF model
- Cloud platform, 256 automated tests
- Security know-how

VALUE PROPOSITION
- Every upload scanned before it is stored
- Disguised files caught without a signature
- Per-file AES-256 key, held by the owner
- Verdicts explained in plain words
- Tamper-evident audit log for accountability

CUSTOMER RELATIONSHIPS
- Self-service sign-up, free plan
- Onboarding help for teams
- Security tips and alerts

CHANNELS
- Web app (live on Google Cloud)
- Campus pilot, competitions, talks
- LinkedIn demo videos

CUSTOMER SEGMENTS
- SMEs and professional firms: law, accounting, clinics
- Schools and universities
- NGOs
- Government offices
- Individuals (free plan)

COST STRUCTURE
- Cloud hosting: compute, database, storage (grows with use)
- Scanning licence: the free VirusTotal API is for non-commercial use only
- Development, support, marketing

REVENUE STREAMS
- Monthly or yearly subscriptions (freemium)
- Per-seat team plans
- Institution licences: setup, training, support

PRICING (PROPOSED)

Free to start, priced for small teams

Free
Students and individuals
RM0
- ✓ 1 GB encrypted storage
- ✓ 30 scans a month
- ✓ Full scan reports
- ✓ 2-step login

Personal
Freelancers
RM59 / year
- ✓ 25 GB encrypted storage
- ✓ 300 scans a month
- ✓ Audit log
- ✓ Email support

Team MOST POPULAR
SMEs and firms
RM19 / user / month
- ✓ 100 GB per user
- ✓ Unlimited fair-use scans
- ✓ Audit log export
- ◷ Admin console, shared folders

Institution
Universities, agencies
Quote
- ✓ Volume pricing
- ✓ Training and support
- ◷ Single sign-on
- ◷ Dedicated scanner

✓ available now · ◷ planned. Proposed prices; to be tested with the pilot.

POSITIONING

Where Cloudie fits

	TYPICAL CLOUD STORAGE	TYPICAL ANTIVIRUS	CLOUDIE
Scans before storing	Some	—	✓
Catches disguised files without a signature	—	Some	✓
Explains the verdict	—	Some	✓
Per-file key held by the owner	Varies	—	✓
Tamper-evident activity log	Varies	—	✓

GO TO MARKET

Three steps to customers

1. **Campus pilot**
   One UiTM faculty uses Cloudie for assignment and document uploads.
2. **SMEs and firms**
   Through SME associations, IT resellers and demo videos of files that signatures missed.
3. **Institutions**
   Universities and agencies, with single sign-on and a dedicated scanner.

YEAR-1 TARGETS (GOALS, NOT RESULTS)

1	500	20	3
campus pilot	free users	paying teams	reseller partners

SOCIAL IMPACT

UN SDG 9 · Industry, Innovation & Infrastructure
UN SDG 16 · Strong Institutions
Affordable security for small organisations

ROADMAP

Now
Live on Google Cloud: scanning, encryption, reports, audit log

6 months
Pilot; AES-GCM; app or passkey login; real-world false-positive test

12 months
Team plan: admin console, shared folders, Malay interface

24 months
Institution plan: single sign-on, dedicated scanner
